**STATEMENT OF INTERVIEW AND**

**SUBMISSION OF SUPPLEMENTAL APPLICATION DATA SHEET**

Sir:

In an examiner-initiated telephone interview on September 9, 2010, Supervisory Patent Examiner Rao Munjunath noted that the declaration of record contains a typographical error in the bibliographic information. In particular, the declaration erroneously indicates that the first foreign priority document is “2003-366178.” The correct number is 2003-365178, as evidenced by the front page of the corresponding published PCT/JP2004/015594 to which the instant application is a 371 National Stage application. Further evidence can be found in the certified copy of the foreign priority document of record at the USPTO and on the front page of the corresponding published application No. 20090099338.

Pursuant to MPEP 601.05 and 37 CFR 1.76, Applicants are submitting herewith a supplemental Application Data Sheet that corrects the first foreign priority application number from 2003-366178 to the appropriate application number 2003-365178. Please make this change of record. No new matter has been added.

It is believed that the application should remain in condition for allowance.

Respectfully submitted,

BROWDY AND NEIMARK, P.L.L.C.  
Attorneys for Applicant(s)
